AVAILABLE IN
THREE COLOURS

PADDED COLLAR

PROTECTIVE
NON-METALLIC TOE CAP

WATER RESISTANT
LEATHER UPPER

PROTECTIVE
NON-METALLIC MIDSOLE

300°C HEAT
RESISTANT SOLE

DESCRIPTION

The Austin trainer features a water resistant leather upper to keep feet dry and has both toe cap and midsole protection made from lightweight, metal free composite material. Its ultra-hardwearing PU/rubber sole is heat-resistant up to 300°C, shock absorbent, anti-slip, anti-static and fuel oil resistant, making it ideal for demanding environments.

SIZES

UK 3-13

STANDARDS

EN20345:2022

TECHNICAL DATA SHEET

MATERIALS

- Water resistant leather upper
- PU/rubber sole
- Non-metallic toe cap
- Non-metallic woven midsole

TYPICAL INDUSTRIES

- Automotive
- Airport & logistics
- Transport
- Warehousing

CERTIFICATION/MARKINGS

EN ISO 20345:2022 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S7L FO HRO SR. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
