

TECHNICAL DATA SHEET

SF90 WATERPROOF CHUKKA BOOT

DESCRIPTION

The Waterproof Chukka boot upgrades the classic chukka style with a waterproof membrane carefully sewn into the upper to keep feet dry. It has both steel toe cap and midsole protection and a hardwearing, dual density PU sole that is shock absorbent, anti-slip, anti-static and fuel oil resistant.

SIZES

UK 3-13

STANDARDS

EN20345 S3
WR SRC

KEY FEATURES

- Waterproof leather upper
- Steel toe cap and midsole
- Dual density shock absorbent, anti-slip, anti-static and fuel oil resistant PU sole
- Energy absorbing heel reduces foot fatigue

FEATURE ICONS

TECHNICAL DATA SHEET

- Waterproof leather upper
- PU/PU sole
- Steel toe cap
- Steel midsole

TYPICAL INDUSTRIES

- Engineering
- Highways
- Airport & logistics
- Rail
- Utilities
- Construction
- Emergency services
- Facilities management

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
